SKILLS

Languages: Python | TypeScript | JavaScript | SQL | Java | C/C++ | Bash | HTML/CSS

Frameworks: Django | Django REST Framework | React | Next.js | Node.js | Wagtail CMS | Prisma ORM

Databases and APIs: PostgreSQL | Oracle/Athena | SQL Server | SQLite | REST APIs | Data Modeling | ETL | Data Validation

Tools and Testing: Git | Docker | GitHub Actions | Postman | Pytest | Django TestCase | WagtailPageTests | Playwright

EXPERIENCE

Yeshe Nyingpo, Inc., New York, NY | Volunteer Web and Technical Lead | 2019 - Present

- Maintain one public website and digital operations for a nonprofit community, supporting content updates, analytics, Mailchimp campaigns, SEO, and 700+ member records.
- Gather requirements and evaluate options for migrating away from Wix and spreadsheet workflows, translating stakeholder needs into data, reporting, content, and support requirements.

Columbia University, Office of Alumni and Development, New York, NY | Development Assistant, Data Management Group | 12/2017 - 08/2022

- Wrote SQL queries and supported Python, SSIS, MS SSRS, and Power BI workflows across 5M+ Athena/Oracle CRM records for fundraising and data-management stakeholders.
- Validated ETL and data-migration workflows through field mapping, nightly import checks, exception handling, post-load reconciliation, and documentation.
- Translated 200-300 weekly Salesforce tickets into reporting and troubleshooting work while helping process thousands of duplicates, correct hundreds of thousands of records, and cut stale production records from about 40% to 3% by 2022; that cleanup supported [The Columbia Commitment](#) from more than \$2B and about 100,000 donors at the [2017 launch](#) to \$5.6B, 199,000 donors, and 160,000 engaged alumni at [close](#).

Parkinson's Foundation, New York, NY | Donor and Database Relations Associate | 02/2016 - 08/2017

- Administered Raiser's Edge 7 donor records, processed 300+ daily gifts, and produced acknowledgment, batch, and gift-summary reports with quality checks.

PROJECTS

Portfolio Website Platform | Python, Django REST Framework, React, Wagtail CMS, Docker

- Engineered a Django/Wagtail portfolio and blog platform with 8 application-defined models/page types, REST project endpoints, Django admin/CMS workflows, and Docker.
- Hardened public-facing routes and forms with rate limiting, CAPTCHA, CSP, CSRF/session hardening, HSTS/security headers, and 18 Django/Wagtail tests.

Fusion Manaba E-Commerce Platform | Next.js, TypeScript, Prisma ORM, PostgreSQL, REST API

- Built a WIP e-commerce application with Next.js, TypeScript, PostgreSQL, Prisma ORM, 2 Prisma models, catalog workflows, and a cart API for checkout preparation.
- Added 9 Playwright API/browser tests for cart mutations, cookie persistence, unavailable products, failed add states, and CSP/security-header behavior.

Cross-Platform Dotfiles Automation | Bash, BATS, macOS, Ubuntu, GitHub Actions

- Built 80+ BATS tests for macOS/Ubuntu install flows, dry runs, idempotence, symlink behavior, syntax checks, bootstrap paths, CI smoke tests, and repo hygiene.

EDUCATION

Bachelor of Science, Computer Science | Montclair State University, Montclair, NJ | 2024

Continuing Education: MIT OpenCourseWare 6.006 Introduction to Algorithms; Abdul Bari C/C++ Data Structures and Algorithms
